

GOAL: \$13 MILLION

Visitor Center Capital Campaign

Headquarters for Global Raptor Conservation

A Case for Support

At Hawk Mountain Sanctuary, we are embarking on an exciting new chapter in our history, and we invite you to be a part of it. We are building a state-of-the-art Visitor Center that will enhance our ability to inspire and educate visitors, while also reflecting our leadership in global raptor conservation science and education.

The current Visitor Center, while cherished by many, no longer meets the needs of our community, nor does it reflect the incredible advancements we've made over the years. In addition, the Visitor Center is reaching the end of its useful life and would otherwise need costly structural upgrades. The current space is not ADA accessible, resulting in countless visitors missing out on many of the educational programs we offer each year.

The new Visitor Center will feature a grand covered entrance, a soaring gabled roof, and larger, more interactive educational exhibits, all while maintaining our traditional look and feel. Visitors will be invited to connect with nature through beautiful outdoor spaces, while new office and meeting spaces will allow us to collaborate and expand our outreach.

A new nature store and viewable raptor enclosures will enhance the visitor experience, and your contribution will help bring this vision to life—creating a world-class gateway to the most famous hawk migration watchsite and connecting visitors to our vital conservation work across the globe.

This new space will allow us to:

- Create a must-see destination that boosts revenue and economic impact
- Demonstrate our commitment to raptor conservation science and education
- Be fully accessible by removing all barriers for visitors of all ages
- Improve vehicle and visitor flow while improving safety and the visitor experience
- Model green building techniques including bird-friendly glass

Together, we can ensure that Hawk Mountain continues to inspire the next generation of raptor conservationists, educators, and nature enthusiasts. Your support will leave a lasting impact, not only on the Sanctuary but also on the future of raptor conservation worldwide.

Join us in making this transformative vision a reality. Thank you for your commitment to preserving Hawk Mountain's legacy and shaping its future.
